Plastic Waste Management

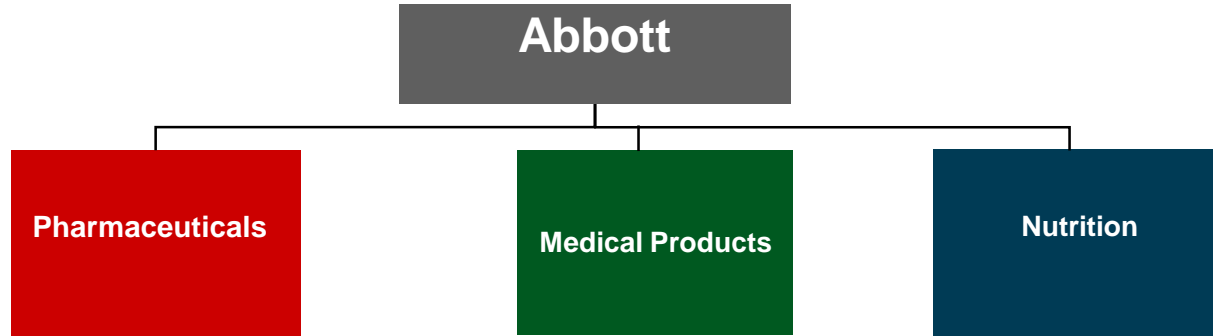

Abbott Action update

31| May | 18

Agenda

- **Abbott Introduction**
- **Abbott understanding of PWM regulation**
- **EPR Approach**
- **Our ask**

Abbott Diversified Business Base

Plastics used for packaging are:

- Bottles/Containers
- Flexible films & Laminates
- Blisters
- Scoops & Lids
- Wraps
- Labels

OUR CUSTOMERS

Abbott understanding

- **Revised Amendments placed in public domain:**
 - MLP that is reusable & re-processed ,can continue to be used
 - **EPR plan is required**
 - *EPR pilot to be done with selected vendor*
 - *EPR plan to be submitted to CPCB*

Abbott Approach

Abbott EPR Plan

- *3 vendors are identified and capability is mapped to the need*
- *Qualification of vendors completed*
- *Consumption details of MLP and other plastic shared with the vendor*
- *Proposal from vendor received*

Current status

- *Legal contract/agreement sign off underway with vendor and Abbott*
- *Expected date to commence piloting **June'18***
- *Abbott TPM's registration initiated as a part of EPR plan*
- *Abbott's active participation with Consortium for shaping the EPR strategy*

Our ask

Clarity needed

- ***National EPR framework and operation guideline for ease of business***
- ***Phased EPR plan (time and %age) or total compliance in 2018***
- ***Brand and Geography neutrality***
- ***50 micron applicable to Shrink label or limited to polybag – Technical requirement***

PWM – Abbott action update

Thank You
